

AYUSH VERMA

B.Tech. – CSE

Ph: +91 9654524461

Email: ayushverma@outlook.in

Faridabad, Haryana, India

EDUCATION

The LNM Institute of Information Technology

Bachelor of Technology in Computer Science

Jaipur, Rajasthan

Aug. 2023 – Present

Ryan International School

CBSE Class 12th (Percentage: 85/100)

Faridabad, Haryana

2021 – 2023

Ryan International School

CBSE Class 10th (Percentage: 92/100)

Faridabad, Haryana

2019 – 2021

PROJECTS

Speaker Recognition Safety System | *FastAPI, Postgres, Redis, PyTorch, Android, Cloud* Sept. 2025 – Present

- Designed and developed a real-time FastAPI backend for child-safety monitoring, processing continuous audio streams from wearable devices.
- Implemented a multi-stage speaker recognition pipeline using VAD, voice embeddings, and cosine similarity to distinguish familiar and unknown speakers.
- Built scalable alerting infrastructure with WebSockets, Redis caching, JWT authentication, and PostgreSQL for low-latency event delivery.
- Integrated location tracking and audio alerts to notify guardians when an unknown speaker is detected.
- Architected stateful detection workflows with session management, threshold-based decision engines, and real-time notification mechanisms.

AI Daily Assistant | *Flutter, Python, Postgres, LLM APIs*

Feb 2026 – Present

- Developing an AI-powered assistant to manage tasks, reminders, and activity tracking using natural language and voice commands.
- Integrated a conversational AI chatbot to interpret user commands and automate scheduling, reminders, and task prioritization.
- Implemented user preference tracking and notification services to provide personalized reminders and productivity insights.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, HTML/CSS, Kotlin

Frameworks: React, Node.js, Material-UI, FastAPI, PyTorch/TensorFlow, SQLAlchemy

Developer Tools: Git, VS Code, Eclipse, Google Colab, Android Studio

EXTRA CURRICULAR & CERTIFICATIONS

Coordinator, Music Club – LNMIIT | *Management, Soft Skills, Graphic Design*

Feb 2025 – Mar 2026

- Managed a team of members to organize music events and cultural performances on campus.
- Collaborated with clubs and event organizers to conduct cultural festivals and concerts.

Advanced Learning Algorithms – DeepLearning.AI (Coursera)

June 2025

- Implemented machine learning models including neural networks, decision trees, and ensemble methods.
- Applied techniques for model training, evaluation, and regularization using Python-based ML libraries.

Supervised Machine Learning – DeepLearning.AI (Coursera)

Apr 2025
